Buying a Husband,

Out in Indiana an old lady of 74 offered \$20,000 for a young husband.

An enterprising fellow of 26 came forward, but the woman's family o sued out a writ of lunacy to prevent | 5 : her from marrying. The jury pro-nounced her sane, and she eloped with her purchase and married him.

The Chicago Record in commenting on the case makes the point that a short time ago a young woman in New York wanted a husband with a 2 title, and got him after a big cash sum of several million dollars had been settled upon him by her relatives. Nobody hinted that the New York girl was insane. On the contrary, society thought that she had distinguished herself.

AGENCY. OF WASHINGTON, D. C., Will dispose of the following judg-

THE TIMES is a newspaper for intelligent men and women who want to read all the news of the world every day. The paper has distinguished merits of its own. It is neither sensational nor dull. It is not sour-tempered. It is not frivolous or visionary. It sees plenty of good in the world and tells about it. It tells of the bad when it must, but not unwholesomely. It prints with fullness the record of human endeavor in many fields outside of business, politics, and war—in literature, religion, science, art, sports, and household matters. No paper in the country prints so many book reviews and so much book news. No paper has so complete a financial page—a daily annual for investors and officers of financial institutions. Its market reports, wool, cotton, breadstuffs, farm products, etc., are the best in the country.

The Democracy of THE TIMES is of the old-fashioned sort as old as Thomas Jefferson; majority rule, no bossism, no machine tyranny, the divorce of politics from private money-making, a sound currency, industrial emancipation, and every-day honesty. To promote the advance of the Democratic Party along these lines it labors with heart and conscience and all its might. NORTH CAROLINA. Hill & Benoy, Aberdeen, W. T. Irwin, Asheville, R. B.
